Dear Parents and Carers,

Today staff and students said their farewells to a long serving member of staff, Mrs Glenda Shulman who began her time at Macleay Island State School in 2007. Students have fond memories of Mrs Shulman sharing her love of literature and her knowledge of how to navigate the massive amounts of information to be found not only in books but also via the internet. Book week was a time of great celebration and students knew that they were in for a week of fascinating and engaging activities culminating in the book parade where students and staff dressed in their favourite book characters. When funding was granted for a new library facility on the school campus Mrs Shulman worked with other members of staff to design and plan a facility that would meet the needs of the information age and the information literacy skills of students. The completed library facility is now known as the Student Resource Centre and its many flexible learning spaces are accessed by students and staff each and every day.

Staff and students wish Mrs Shulman many years of good health so that she can continue to enjoy her greatest loves; her family, her friends and travelling to all parts of the world.
